Nagasaki Prefecture Educational Policy

Nagasaki Prefecture's education encourages the nurturing of well-rounded individuals who possess public spirit, and contribute to peace and development both within Japan and around the world. The history of international exchange is still alive, and Nagasaki Prefecture educational policy proposes that we value the inheritance of the traditions and cultures of our birthplace, protect the surrounding nature, and appreciate the preciousness of life and personal dignity.

In order to establish "Nagasaki : The Prefecture of Education," schools, families and citizens in Nagasaki should become aware of their individual roles and responsibilities, and work collaboratively. The citizens of the prefecture should raise their children in good health, and continue learning throughout the course of their lifetime. This is the vision of our society that we now wish to realize.

In particular, while providing our children with deep affection, people involved in education should be conscious of their mission, and strengthen their understanding and leadership abilities in order to fulfill the educational policy of our prefecture.
